

Roundabout at 4th Street and Pacific Hwy La Center

Project Completed: December 2018

Project Information

RTC funding: \$ 830,000

Total Project Cost: \$ 2,178,000

Project Type: Traffic Mobility

Project Length: 0.04 miles

Function Class: Major Collector

Daily Traffic Volume: 12,000

Project Description

The project consists of construction of a roundabout at the intersection of 4th Street and Pacific Highway. The roundabout is 110-foot outside diameter and 55- foot inscribed circle with a 15-foot wide circulating roadway and 12.5-foot truck apron. The decision to construct a roundabout at this intersection has dramatically improved mobility, access and pedestrian safety.

Project Benefits

- Improve access and mobility through intersection
- Shorter length of pedestrian crossing with traffic refuge area

Project Funding

Phase	Year	Federal Funds	Other Funds	Total
Design	2015	\$138,000		\$138,000
Right of Way	2017	0		0
Construction	2018	\$692,000	\$1,348,000	\$2,040,000
Total		\$830,000	\$1,348,000	\$2,178,000
