

SR-14 Traveler Information, SE 164th Av. to NW 6th Av. WSDOT

Project Completed: January 2016

Project Information

RTC funding: \$679,375 in CMAQ Funds

Total Project Cost: \$1,400,000

Project Type: TSMO-Traveler Information

Project Length: 3.9 miles

Function Class: Principal Arterial

Daily Traffic Volume: 81,000

Project Description

This project provides a communications link, traffic detection and roadway cameras to provide additional traveler information along SR-14. Project includes fiber optic communications, traffic surveillance cameras and traffic data stations. All improvements are in accordance with the WSDOT Regional ITS Plan and recognized by the RTC VAST partnership as an important system addition.

Project Benefits

- Provides critical communication link (Fiber Optic)
- Provides additional traffic data (Counts and Speeds)
- Provides visual image of traffic operations (Cameras)
- Traveler information communicated to public via WSDOT Website (Traffic Flow and Travel Time Maps)

Project Funding

Phase	Year	Federal Funds	Other Funds	Total
Design	2014	\$73,000	\$27,000	\$100,000
Construction	2015	\$606,375	\$693,625	\$1,300,000
Total		\$679,375	\$720,625	\$1,400,000
